**New to Mathis's work?** This is my original intro, with a lot of explanation of his methods and conclusions. I've moved this section down; it has a video, and detailed comments on selected pages. Mathis's material needs more general knowledge than is found in ordinary teaching and media. His use of online family trees, online images and fakes, and some online company info are important. And

Jews and their collaborators as sources of corruption. Plus awareness of world history, dynasties, geography, language, and codes.

**Foremost intellectual??** MM has been ignored, ridiculed, and condemned, almost always without solid reasons, by unsophisticated 'critics'. I've tried to answer questions, including on Miles Mathis and Jews and collaborators, and collected them at the end of this (long) page.

**4 January 2023 I'm unhappy with his collaborators.** It's time to add my reservations to this section. Click this link to go there.

**Update! 16 Oct 2022** Milesmathis.com has two sets of remarkable new material. [1] 'Lestrade' (seems British) on Japan, Japan's take-over by American Jews (compare with Britain) and the massive fakes in the Second World War, including Pearl Harbor, Guadalcanal, Darwin. I have not had time to digest these, but I hope serious historians, if any, will look. [2] Canadian 'Coyote Weeds', Texan Miles Mathis, and others expand the action against government frauds (including COVID).

[3] And incidentally TheOccidentalObserver's Kevin MacDonald shows signs of learning things after about 1950. Just a plea: try to promote these people, though they are not very communicative! - 26 July 2022

**My attempts at mutual discussion.** Miles (in my view) over-estimates his site's hits, because he unconsciously picks the easy, but flattering, options. For all he knows, 99% of his downloads may be to 'intelligence' sites, destined to be deleted. He replied to me *I need exposure? You have to be kidding. My sites are superviral, with Google having to delist me to keep numbers down. It is clueless commentary like that drives people away from you.* In fact, he needs to look at the logs from his hosting site. (<https://big-lies.org/general/log-analyzers.html> is my account of trying to interpret these log files).

**Four of his most original pdfs are on John Lennon, the J F Kennedy 'assassination', Stephen Hawking in hawk4.pdf, and Hitler's ancestry in hiller.pdf, each of them strikingly original and packed with detail.** BUT in my browsing on the web, I have I think NEVER seen a single reference to his ideas. So there is an exposure problem, since there are many sites and many readers wanting new material. Approaching the question from another direction, try Googling "alternative physics" or some other formulation which is not part of the Mathis oeuvre. There are dozens and dozens of sites, mostly no doubt rubbish, but none include Mathis pages. Same with "real history" or "true history". Let me illustrate how this common type of over-estimation occurs. A friend of mine, Ivor Catt, had several pages on the 'AIDS' fraud on his website. With great delight, he said he's Googled for "Ivor Catt" AIDS together, and came out as #1, #2, and #5. Without even thinking of it, he'd biased the results to himself. Easily done. Catt's mistake is easy to see through; but there are subtler versions. Really, people with their own sites need to look at their own log files, though AWStats can substitute.

Google's own Analytics need every page to include some Javascript which is a pain—even if you like Google. Miles won't talk to me, which in fact is par for the course for most Internet people: they often don't communicate, even when it seems clear that they should. Over time, this is a problem: people age, forget, and die, and information cools, becomes outdated, and is lost. Since 2014 I've wanted to discuss his ideas with him online, and in the process understand his ideas better. And some of his topics reflect mine, for example the idea that nukes are a myth, and the Second World War is to some extent fake. But I'm completely blocked out of the site [cuttingthroughthefog.com](http://cuttingthroughthefog.com) — my past experience has been that after a time I withdraw my request.

I'm tempted to mention a short story by Max Beerbohm (1895-ish) on elusive fame, *Enoch Soames*, which includes London and 'the Devil', but omits 20th century Jewish wars. Not intended to describe anyone's work.

**October 2022 Miles has a piece on Mussolini** [benito.pdf](#) which I've inserted here, as I seem to have overlooked it. In fact, there seems to be a conspiracy of silence about Mussolini:—Occidental Observer didn't post this link; Tony Benn's speech years ago on 'fascism' barely mentioned the name, etc. Only with Meloni's no doubt staged Italian election produced carbon-copy media hack reportage on Mussolini as 'far right'. The 'far right' two-dimensional (i.e. 'left' or 'right') was pinned on after it was decided Hitler was 'right wing', despite being nominally in favour of German workers. In the 2-D world of Jews, everyone is either for-Jews, or against them.

**May 2022 'Lestrade'** (says he's in the UK; not me, but he's welcome to email. I've just found [lestrade.pdf](#) dated 18 Jan 2019 on Miles' site; it has a detailed debunking of the 'Hungerford Massacre'. And he has [dunblane.pdf](#) dated 3.2.2019 on Dunblane, both events being used to ban private gun ownership. Miles Mathis adds a long and detailed postscript including excursions into Scottish nobility—it occurs to me that Scottish lands are relatively poor, so they have more reason to go for lucrative frauds. Think of Scottish puppets such as Blair and Brown sucking up to the 'Holocaust' pretence. Lestrade now has pdf files on the **Second World War in the Pacific. And the takeover of Japan by the USA—backed by Jews, behind the scenes as always.** Lestrade's view is taking similar form to those analysts who see Jewish power in the USA, Europe, and Russia as controlling the whole disaster, in the traditional Jewish way. Namely money and assets for Jews, genocides and population shifts and fake news to suit Jews. For some reason, Lestrade always writes 'Pearl Harbour'.

**April 22 2022** [sail2.pdf](#) on how sails work interested me for its (apologies for this) weak explanation. One of the reasons I avoid his science work!

**April 9 2022 The Court Formerly Known as Supreme** on another useless, in this case female black mixed race, Jew appointee. Reminds me of the declining Roman Empire.

**Phoenician family fakes** 18 April 'Mutiny on the Bounty' faked and why - Hawaii, Tahiti. British Navy, rethinking of Nelson, Admiralty. (Why museums of navy will not be honest). | 16 April Adele faked bio for heavy publicity. NB Saturn earrings showing rings aren't Jewish/Phoenician; they post-date telescopes | 7 April Christopher Reeve fake staged for stem cell work | 31 March Bezos' Blue faked | 25 March Watts Family Murders were Faked | 23 March Wetterling kidnapping was fake | 8 March Jan 6th trials fake | 3 March Ghislaine Maxwell trial fake | 2 April Natalee Holloway case fake

**Miles:** "I can't tell you how sick I am of this. It is the same thing every time. Lies lies lies."

**Omitted!:** I found an overlooked file: Anonymous look at Klaus Martin Schwab. Schwab2.pdf (another version is Schwab.pdf, about 500MB as opposed to 750 of Schwab2; some of the extra length is a review of *The Great Reset* by Schwab). Interesting biography of presumably a German Jew, perhaps aiming to be the Moschiach (Messiah). He seems a little shy for this esteemed post. Material on Switzerland and Rahm & Bodmer, an old private bank; someone who 'made his fortune in the 30 years war'; and links to DNA research; so perhaps Schwab has connections with COVID frauds and the lockdown frauds.

**25 March 2022** 'Lestrade' on the entire campaign to conquer **Japan**, converting it from something like a Samurai Shogunate with manufactured Shinto religion, into a Jew-controlled region. If you're read books on Japanese history, from the arrival of steam-powered USA ships in Japan, and found the whole thing incomprehensible, then **read this piece, and the following one. Just the right length: long but not interminable.** [Tiny Nagasaki Port 1634-1854 or Portuguese | 1853 Commodore Perry's black ships | Shoguns disabled | Boshin War 1868-1869]

(I put a **Japanese translation** by DeepL online, to see what they make of it. The page certainly looks elegant and *Japonesque* to my occidental eyes).

**12 March 2022** 'Lestrade' in Britain in **pactheatre.pdf** (Pacific Theatre spelt the English way). On the World War2 Aleutian campaign, starting 1942. Includes Tinian, Iwo Jima. Similar approach to Hexzane527 on WW2; concludes that the entire Aleutian campaign is obvious bullshit. And ditto about the propaganda about Japan. Lestrade detects that the main campaign is by the new American Marines, who wanted their share of the money to be handed out.

**Video copy of Lestrade on Iwo Jima bullshit** (my title!). mp4 file with video evidence that the Aleutians campaign including Iwo Jima was all fake..

**8 March 2022** a little math starting with tiny amount of gasoline imports from Russia, MM anticipates serious reaction, for the first time in human history to bulk swindling. I hope he's right, though I'm not sure the situation is unprecedented, though one feels it should be.

**1 March 2022** Anonymous 9-page piece on the British East India Company (there were others) and the 'American Revolution'. Why the EIC supported the colonists (or appeared to). **If you're an American, trying to make sense of the deliberately baffling 'history' presented to you, I recommend you read this.**

**7 April '1984' (out of sequence here) repeats the 'Fake War in Ukraine' line. And adds more fear porn from the supposed alternative media.** For some reason unknown to me the file is named adams2.pdf.

**28 Feb 2022. Two interesting pieces;** a single page on **The Fake War in Ukraine** with a bit-part by Sean Penn, cousin of Putin, 'to show this is Hollywood'. And scathing stuff on people like Alex Jones, promoting nuclear scares and even Chernobyl. And money from overpriced weaponry, to make a booming economy—for the profiteers. Miles thinks it comes from taxpayers, but of course it's spread over many years, in the same way that Africans pay interest on loans to blacks and others who starved and killed. Miles makes a lot of 'mini-me', which seems to be from a set of crap movies. I hope he's not being a bit too desperate for cheap publicity. His overview claim is that the thing is to distract from the COVID fraud.

*This is MM's newest view: ... lest you think this indicates the fake war in Ukraine is just a front for squabbling between Russian, Ukraine, and US oligarchs, I think even that is saying too much. These oligarchs aren't squabbling at all. It is a continuation of the east-west alliance we have seen since WWII, and this whole thing is manufactured to benefit both sides, as usual. Not only does it benefit military contractors east and west, it draws eyes off the international pharmaceutical companies and their paid henchmen worldwide in government and media, who are all complicit in the ongoing crime against humanity. [I.e. 'COVID'] It allows a continued acceleration of the general rape of the taxpayer, through rising prices, bailouts, and stratospheric new debt.*

### **UKRAINE/UKRANIA NOTES**

**[1] History.** Russia has been compared to a huge sprawling mansion, but with just one tiny front door. Apart from St Petersburg on the Baltic (often cold), the Crimea is their only European warm-water port, and even that was difficult, since before the Suez Canal it was a long route through the Black Sea and Mediterranean. This probably explains the 19th century Crimean War, a naval power thing. The area had a huge Jew-enforced famine in the 1930s. As a result, many welcomed the 'Nazis' in WW2, without knowing that Jews ran them in addition. All this is suppressed; if the Jew media, including the BBC etc, don't mention this, you can be sure it's just more Jew propaganda. There are many Jews from Ukraine in the USA (e.g. Bob Dylan/Zimmermann). These are just one Jewish group with interests in the region.

**2. Present.** Ukraine has borders with and/or populations of Germans, Poles, Georgians, Russians etc. Each of these has their Jewish component, fairly fluent in the local languages, and of course with news media there, and local groups of

the Freemason types, running supposed political parties. And fed mostly by US Fed printed money. So the situation is of the type found in Ireland and Spain when there were supposed sectarians, only more complicated. There's scope for e.g. taking over assets, destroying old areas for reconstruction for gain, war equipment profiteering, bogus political parties, and other typical Jewish activities. That's all I can confidently say, except that nuke threats are a fraud.

**3. Added later.** I suspect, though I have no direct evidence, that revisionism must have taken some hold in the Ukraine, with far more cause than in western Europe. If Jews decide to relocate, maybe with their sidekicks and subordinates, Putin makes a good joke threat. Bear in mind that Jews after winning the Second World War have installed themselves in all hierarchies, so Putin is just as much a Jew ally as Trump, Biden, Macron, Trudeau, Boris Osman and the rest. Many people seeing the media circus of faux outrage against Trump or Putin may take it seriously; in fact, 'conservative' Jewish scum have little choice but do something of the sort. Watching BBC whores of the Chakrabarti or Fiona Bruce or Sophie Raworth type, reading out their anonymous scripts accompanied by their Jew-approved non-British monkeys, and watching the appeals for non-Jews to take in 'refugees' with no questions asked, plus the occasional video from visitors showing no fighting, and the occasional obviously insincere pleas from people like Martin Bell on Afghans and Yemenis. The fake war idea seems most likely. Miles Mathis in effect identifies some wars as being essentially faked, typically to hide a takeover or regime change. But there are serious wars too.

-RW 3 3 2022 & 20 3 2022

... And one on **Buddhism**, 25 Feb, looking in effect at the odd fact that several religions (Buddhism; Confucianism) appeared at more or less the same time and spread. There were pre-existing religions, such as Hinduism, and others of which little has survived (Megalithic culture? Celts?). Miles notes 'Gautama' is one of the few things supposedly known about Buddha; and notes that 'Gotama' is a variant spelling, no doubt in modern-ish English. He finds some similar possible derivations, including Goths, Saxe-Coburg-Gotha. Though not the Gothenburg area [Göteborg and Götlands]. Fascinating possibilities, in effect including the possibilities that religions impose other-worldliness on defeated peoples. I wonder if Tibetan Buddhism (if that's what it is) has ever been properly studied.

And more on the Phoenix. Symbol of Phoenicia? **Quiz.** Very disappointing quiz by Miles. I'd expected misunderstandings, common errors, the installation of wrong beliefs, lies, religions, suppression, and what have you. But this is very conventional. I won't even list it. He has been influenced by some British quizzes, such as *University Challenge*, which are far outside the range of US quiz shows known to me. Their weaknesses show up with time. **12 Feb 2022. I just listened to Nick Griffin** (once of the BNP) on what appears to be his 2-volume work *Pilgrims of the Sword*, apparently 'The Official History of the Knights Templar Order'. He was introduced by Andrew Carrington Hitchcock, in (I fear) terribly amateur and entirely unfocussed style. Griffin appears to be trying for some sort of neo-

Christian England—presumably based on the antique Jewish writings in the Bible.

I recommend Miles's long paper **phillip.pdf** for a highly sceptical view of the supposed events and supposed people. Miles (after a long cold look) thinks the story has been mis-read. Instead of Europeans going into the east, easterners entered and subverted royal houses in Europe. Miles has scepticism about the details of Crusades; some may have been invented, especially if they 'don't make sense'.

Possibly Griffin has the project of countering this view, with tales of absurd heroisms and derring-do, and pretending that Christianity did wonders for Europe. Nick states that somebody (jews?) 'backs both sides'. This is not true; they never back serious discussion of Jews, and confine themselves to apparent rivalries. ACH will not follow.

**The unattractively-titled pedo.pdf (7 Feb 2022) starts by referring to some Jewish jerk in the controlled news.** Miles turns from it, to give an attractive presentation of the History of Ideas, showing how Jews take popular ideas and ruin them. He writes: *Liberalism, like republicanism, was originally about protecting normal people from the very rich. It was connected to the Enlightenment, which was against the divine rights of kings, against entrenched aristocracies, and against government without representation.* Many other ideas—socialism, feminism, democracy, equality before law, military honour, science, Christian love, community, fiscal integrity, tribes and nations, science, philosophy, medicine—have been corrupted, and Miles's article deserves to be read by Americans intellectually stunted by the 'Democrat' vs 'Republican' pseudo-dichotomy. Occurs to me reading MM on US bases that Britain has the Newbury place, which Bitchute uses, and banned me, and many others including 'Hoaxashian'. I wonder what these places are like? Do they salute, for example? How many are fluent with their computers?

**One of Miles's longest and most seminal articles is barindex2.pdf.** (I have no idea what, if anything, that title means).

**Miles Mathis uploaded the piece in 2007 and 2015.** Since those dates, he has (I think) greatly widened and deepened his views on Jews, aristocratic families, industry, and finance. And such things as actors, homosexuality, and long-term media projects.

**Barindex2 Explains what really happened that day, November 22 1963.** Scripted story including the open risk in Dallas; movies and photos, Hollywood and fake photos, corpse, Oswald, Warren Commission, and alternate theories, hiding the fact JFK was still alive.

**The secret and successful undermining and overthrow of a semi-Republic by a fascist alliance of oligarchs.** Joseph Kennedy saw that with enough power, he could take over the entire US scene, with both the CIA and FBI. Truman and 1947 National Security Act. Full speech of JFK is in fact in favour of secrecy.

Fascinating piece on **Walt Disney** (1 Feb 2022) by Leaf Garrit. Who appears to be Colin Stayton. Introduction on Disney's ancestry. And Disney studios' propaganda, notable in WW2. Possibly it was part of the post-1945 propaganda lies on e.g. nuclear weapons from Lookout Mountain. And Disney studios recent production, *Frozen*. And their view of ordinary Jews.

Garrit/ Stayton links to some sources, giving good insight into the ancestry methodology of Miles Mathis and himself. (One of his links doesn't work, though).

**'Irish' Michael Collins'** by Miles Mathis (16 Jan 2022). There's a link to this site in this article on the fake of Irish freedom.

**'Harlem Renaissance'** by 'Donny Ahzmond' (13 Jan 2022), who wrote 'I suggested the Harlem Renaissance was an Intel project on the grounds that one of its key patrons, Charlotte Osgood Mason, was married to a close confidant of the Rockefellers ... '

**General Update. Includes the Rittenhouse 'trial'** (Nov 9th, 2021. 'Based on Internet research anyone can do, but doesn't').

Several updates, in particular the Rittenhouse case. The Mathis view is that the televised 'trial' is a fake. He bases this view on legal procedures, which this 'trial' fails to follow. He doesn't state exactly what's happening: is it possible that no lawyers or judges or academics fail to speak up? But, on reflection, the media broadcast all sorts of rubbish, on wars, money, and so on, fronted by incompetents.

**Rome** (Oct 6, 2021).

Interesting paper by Miles on Rome, dedicated to his Latin teacher. Miles says here, and has said before, that he was a very successful Latin student, but (in effect) too young to dare intense revisionist work on the Roman Empire. He seems familiar with many Latin works of some obscurity; he talks dismissively of such authors as Plutarch, regarding them as light propagandists.

The thesis of this piece is that Rome, too, was run by Phoenicians, as was the predecessor in Europe. He looks at what surviving evidence there is of the appearance of Julius Caesar, Cleopatra, and others. He thinks both Carthage and Rome were essentially Jewish.

I suspect he thinks many rivalries were faked, so that wars and deaths could be chalked up, just like now. Perhaps he'd agree that the Roman Catholic Church and Jews, later, were in such a symbiosis. Rome and Jews must have been more complicated than the naive common Jew belief insists on. Perhaps that's why Jews wail at the wall of a smallish Roman fort.

There's a lot here in Mathis. I wish the media official experts, such as Mary Beard, could debate with Mathis. But of course they won't. By now, the image of Rome has taken a beating, enormously downgraded from the 19th-century's unintelligent adulation, though there hasn't been much full-on debate.

Anyone discussing remote issues is likely to insert something of his/her own attitudes into his/her predictions. Many of Mathis' faked-death characters retire to seaside resorts, something he admitted to liking. I can't see Julius Caesar doing this, though. Wouldn't he hunt wild boar, or write memoirs?

As regards the really long term, Miles thinks writers and propagandists and teachers spend a lot of their time muddying the waters and distracting from Phoenician—presumably Jews and collaborators—and that he is doing his best to demolish and remove this massive worldwide construction. I hope he's right.

**Patton** Aug 15th 2021. Interesting and very original paper on General Patton. There have been many 'alternative' views of Patton, claiming for example that he was murdered for being outspoken in favour of Jews. Mathis gives a new view, backed by 'the families' information on Patton, his unimpressive West Point record, his promotions despite nothing, the irrelevance of north Africa, his unimpressive speaking record as shown by newsreel film (though of course this is suspect. People like Coppola are inserted), and Patton's 'donut girl' fascinations. There's insinuation rather than hard fact on keeping war going to make money; bank records as far as I know being super top secret. In contrast, hexzane527 treats the whole war as a serious unit, as do most authors. David Irving gets a mention but not as a perceptive critic. Anyway,

I've only inserted this comment on 24 Jan 2022, after trying to assess Mathis's irritating insults to me. He finally linked to this site so I could make some guess as to the popularity of his site, judging by his readers looking at my site. **Can I make an appeal that he includes translations of his .pdf files into other languages? The best translator (self-described) is DeepL, and, though its claim to use neural networks is not credible to me, it does say it can translate pdf files. Worth trying, surely, if he can work out how to do it, which I can't.**

**Our Buildings are All Wrong** Paper (Sept 11 2021):— on Buildings, Charge and Solar Minimum in the sun's 11-year cycle. I've avoided Mathis' science and math books and papers, partly because of exposure to quite a few people who sound similar (e.g. in Mensa) and partly because I found them unclear. They are a bit too relative for my liking: if for example getting rid of insulation improves people's health, by how much exactly does it do that? I found that Steven Oostdijk of fqxi.org co-operated with Mathis in 2009. After that I found a connection with dblp, a test lab or research place for new computer chips. It appears to be at Trier University. He has an MSc in something electrical and engineering. (Apologies for the vagueness). Miles views the sun as distributing photons. He has his own charge theory. The sun's eleven-year cycle, of sunspots and presumably other things, seems to me so much more energetic

than even the biggest planets that I can't see their contributions as important. Mathis thinks photons are particles of which only a few are visible to our eyes, though presumably detectable by other methods. He regards (I think) the wave theory as wrong; a view (I think) taken by Newton. Part of the evidence for waves is interference fringes, which as far as I know have no interpretation in photons. However, charge is another problem. So is its effect on living things. I want to register that I doubt if there's much value in all this - RW.

Maybe he met a believer in 'orgone' or something like that. I suspect some of his math/science material harms his reputation.

⇒ ⇒ ⇒ **OLD PAPER by Miles Mathis: silver.pdf (July 6, 2014) review of a 2012 'movie' *Silver Linings Playbook*, 'nominated for 8 academy awards'**. Miles makes this point about the movie, apparently to do with adultery; but he *doesn't* make the point that such emotions as 'honour killings', bombing civilians, annoyance that immigrants are given housing and money, are managed in the same way:

The government doesn't want you to think you have the right to feel any real emotions, or, worse, to act on them. If you feel mad or sad or even happy, they want you to think you have gone mental. They want you to believe the only sane response to the world is a flat acceptance. Even a shrug of the shoulders is suspect, because it indicates you may be hiding your true feelings. *You aren't allowed any true feelings.*

That is what "bi-polar" is telling you .... They are trying to sell you the idea that mood swings are unnatural. Just as they have labeled kids' natural energy as ADHD, they have labeled adults' natural moods as bi-polar. People ... have mood swings... People are supposed to feel both happy and sad, provided they have some reason to feel either way. Life ... provides highs and lows in abundance, so we should look sideways at people who do not have mood swings, not those who do.

⇒ ⇒ ⇒ **NEW PAPER by Miles Mathis: in his opinion, Rommel was a Jew.** His opinion is backed by his usual panoply of observations on family connections in Germany and (mostly) UK and USA. And authors such as Rigg. **Rommel was also Jewish** (5 August 2021). If you're a fan of Rommel, or a fan of David Irving, why not review the official views of his activities?

⇒ ⇒ ⇒ **NEW PAPER by 'Homer Price' on the managed 'property market' in the USA and of course elsewhere.**

**Is BlackRock Ruining the Housing Market? Yes, They Are** Them as 'as munny an' all—wot's a beauty?—the flower as blows.

But propuppy, propuppy sticks, an' propuppy, propuppy graws. —Alfred Lord Tennyson, in dialect mode, realising the force of property law.

May 17th 2021. Miles in stockholm.pdf (article on 'Stockholm Syndrome'.) Miles uncharacteristically fails to notice the captors *may* have a good case).

He says *"The year 2020 was the most catastrophic in recent history, with far more psychological pressure applied to the general population than even during the world wars. The world wars were stressful, but people still knew their places during those decades. The governmental response was cohesive and the enemy was clear and mostly defined."*

This is one time Miles really shocked me! There were tens of millions of deaths, many in horrible circumstances, even among Americans. And many, many years of Jewish propaganda—far more than the COVID junk—with wartime violence and censorship and conscription which, even with Jewish approval of mass slaughter of goyim, extended years and years into the Great Reset after the war. Sigh.

Lincoln Assassination hoax. I found a comment by Miles saying his paper on  
Lincoln was being suppressed, endless junk appearing in Google. So I've put his  
paper here. (It's also below). I have several versions; this is the longest. Very  
good, very much worth reading, especially for newbies.

July 2020 papers include Solzhenitsyn, the psyop Parallel word, and the  
obviously Jewish and fraudulent 'American Civil Liberties Union'.

Parallel is a terrific piece, self-referential comment by Miles, centring on a  
plump woman supposedly called Adrienne la France, and the Q-Anon thing which  
Miles is pretty sure is an indirect attack, a 'parallel', on him. An 'Anti' is someone  
like Ezra Pound, a Jew or crypto-Jew who says things, mostly true, and is the  
'imploded', typically by being jailed or set up as a nutcase, though the actual  
institutions remain mysterious. The idea is to 'blackwash' the set of ideas. A  
'parallel' is a person or organisation set up to suggest or mimic the target, and is  
then attacked by incisive, clever, ingenious critics—or that's what they claim.

Well worth reading.

His conclusion is important: ... everyone famous on both sides of every question is a black hat, in every field and every period of history, including Trump. All the Presidents, all the Justices, all the Governors, all the scientists, all the historians, all the artists, all the actors, all the politicians, all the newscasters, all the directors, all the producers. ... They are all Jewish close cousins, and their families have been running the world via lies and conjobs for at least 4000 years. And that isn't some wild claim I make, based on a stray hair or on channeling aliens or on fake Q-level clearance: it is based on years of in-depth research, which is posted in plain English on the internet right now.

Feb 22, 2019 Solar Minimum. Four biggest planets Jupiter, Saturn, Uranus, Neptune) not aligned, i.e. presumably more or less evenly arranged. MWM says this has health effects

Feb 20, 2019 Solar Minimum Update (NB dates recorded here are from freefind; if a file's changed, its new date is stored). Valentine's Day (Feb 14th) claimed to be an enfeebling time of year

Feb 11, 2019 'Bob Dylan's real link to the Rolling Stones'. Lots on wealth buying influence, Ukraine and Jews, showtime and review promotion and meteoric rises etc. And big organisations —CIA, DIA, NSA, NSA, NGA, NRO. And Bobby Vee, Little Richard, Buddy Holly, Ewan MacColl, Woody Guthrie, Paul Simon, Joni Mitchell... 'Operation Rolling Stone ... idea that change for its own sake makes money

Feb 10, 2019 Titanic fraud. 34 pages. Interesting to see MWM's methods, starting with impossibility of full front-page newspaper coverage. And undersized crew. And family links with Captain Smith. And Lloyds (insurers). And iceberg distribution. And faked drawings. And faked sinking. And faked underwater pictures.

Feb 3, 2019 Marilyn Monroe's death was faked'

Feb 2, 2019 Dunblane, supposed shootings in Scotland. Lestrade investigates, #2. Lots of material; 30 pages

Jan 14, 2019 Fake Leonardo as a way to move money to Saudi Arabia, to bomb Yemen. At least, I think that's what Miles is saying. The piece is written in teaser style. Based on [launder.pdf](#)

Jan 14, 2019 Long paper on art fraud, with looks at HSBC money laundering/tax dodges, Mossack Fonseca of Panama, Joe Lewis 'billionaire currency trader', Blackstone, the Lynches of Galway, Fidel Castro, the 'Paradise Papers, released to answer criticisms like mine of the Panama Papers.' Jan 2, 2019 Jimmy Stewart, actor. MWM decides to see who he was. Romp through names. And a look at Stewart's claimed Second World War record.

Jan 2, 2019 Christopher Wylie, Cambridge Analytica, pink hair, related to Tsar advisor. Manufactured as fake scandal 'to keep your eyes on Trump.' At Chatham House. Puzzlingly irrelevant stuff on Cadwallader of the Guardian. 'They want your eyes off the banks and huge investment groups and Intelligence agencies.'

Dec 28, 2018 12 pages on the nuclear programs. 'More speculative' than most. Doubts on Pantex at Amarillo, and Los Alamos. Claims that the 'Manhattan Project' was unnecessary, since wars are managed. And claims there may be new energy sources, perhaps using caesium. I don't think he claims they were simple pretences. Or that new weapons are developed: Miles skates over horrific wars and the huge death rates.

Dec 22, 2018 John Kennedy Toole, *A Confederacy of Dunces*. I'd never heard of him. MWM delves into a fake life story, and red flags such as surnames.

Dec 20, 2018 Orson Welles, *War of the Worlds* says the panic stories aren't true, and in fact were invented and run by the presumably Jewish media. As an experiment

Dec 18, 2018 Doctors, vitamins, minerals. In particular, MWM thought he had an excess of iodine. Hm

Nov 21, 2018 2007 faked deaths of two 'artists' Duncan and Blake. Possible motives: sensitive artists. Or rampant murders and danger. MWM doesn't consider the whites-as-murderers motif, surely a possibility to evade black crime. Discussion of 'scientology'

Nov 3, 2018 Pittsburgh synagogue fake shooting. Includes rich array of number markers, and Trump's alleged reactions, suggesting it's a Jewish attempt at a fake

war. Plus genealogy and biog.

Ancient Spooks. 5 parts collected here

Jul 13, 2018 Blackrock/Vanguard wealth. I \*think\* this comes out of managed confusion, in which 'value' includes future earnings, so a company appears to be hugely wealthy

Jun 25, 2018 Obama's Genealogy. And so much else, notably Jewish mother, Dunham. But many other names, and many other topics. Including Simon Shack, and John Lennon resembling Bertrand Russell, and Lennon's dad as a shipping magnate, and MWM protesting that, yes, he does write these pieces

3 Aug 2017, Jun 25 2018 'Proof that John Lennon faked his own death'. 50 pages. Details of 'Mark Staycer' from the pulled film 'Let Him Be' (2009), and advice to

let him be. And a 2010 History Channel 'documentary' to try to step back. Includes British intelligence from 1947, *Sergeant Pepper's Lonely Hearts Club Band* and its cover design, *A Day in the Life*, George Martin, and the rest. Very fully-developed account of the Beatles as an intelligence project, aimed to improve the image of Britain in the USA. Mathis is aware of Churchill and Briton or (((Britons))) pushing the USA into war against Germany and Italy and Japan. (See hexzane527 on the inner Jewing of WW2). Includes (about a third from the middle) high finance look at company music rights, including parallel case with Michael Jackson, involving Blackrock. See black.pdf. Fascinating. Looks to me a Jewish-pushed suggestion, being to do with intricacies of international company laws and asset valuation, not perhaps natural to MWM. But who knows? And a look at photos and events including Chapman round the supposed shooting in New York. Suspects MWM himself is allowed to continue as only a small percentage of people can believe it.

Jun 24, 2018 Kabbalah, Hermeticism, and the Occult. 25 pages. Bacon, Freemasonry, Rosicrucianism, Cromwell etc. Theories on aristocrats and financiers and industrialists as power blocs, not rivals. And scientists and artists?

Jun 4, 2018 Vladimir Nabokov part II. 'Soldier of Zion'. And Archibald MacLeish, Mark van Doren, 'Bob Dylan'. Arthur Butz? March 28th and much Kabbalistic material. Many other people, mainly Jews from Russia - long article. NOT by MWM

May 24, 2018 Santa Fe school shooting. Another fake

A response to Theodore Dalrymple [who thinks he's a Jew - RW] and the Manhattan Institute. added 3/8/16, *The Monica Lewinsky Scandal was Faked*. Lots of photo analysis, plus commentary on Bill and Hillary, Vince Foster, the Jacobs family, Skolnick, and much more. added 3/3/16, *Lucky Lindy?* I have discovered a few other interesting things, including the probable backers of the flight. See p. 25 for the largest addition. added 3/2/16, *Michael Crichton was not just a Novelist*. A reader has researched Crichton for us, finding many interesting things. added 2/23/16, *Lucky Lindy?* I analyze Charles Lindbergh's life, showing you some things you may have missed. added 2/12/16, *Gravity Waves of Propaganda, the Sequel*. I show you how the newest announcement is another massive fraud. added 2/12/16, *The O. J. Simpson Trial was Faked*. I have added a photo of Nicole and Denise together, sent in by a reader. It confirms my analysis that all these photos are paste-ups. added 2/9/16, *The Matrix Deconstructed*. I have added a short section, warning you that the PBS show *Closer to Truth* is actually created to take you *Further from the Truth* . added 2/8/16, *The Beer Hall Putsch*. Oh, the maze of tunnels when you are down the rabbit hole. added 2/3/16, *Strange Plagiarism*. *Veterans Today* has updated their article with a small nod to me, but are still not indicating a direct quote. Legally, as it stands, the text is still plagiarized, since it is still acting as misdirection. added 1/30/16, *Strange Plagiarism*. Plagiarized text from my book **The Un-unified Field** at *Veterans Today* . added 1/29/16, *Was Dresden also Faked?* A look at the photos posted on the Wikipedia page takes us way down the rabbit hole. added 1/25/16, *The Nuclear Hoax*. My second paper on this, where I look mostly at the Trinity test. added 1/18/16, *Robert Anton Wilson: Spook-Baby*. I out another nest of probable agents. added 1/13/16, *The Matrix Deconstructed*. Where I tell you what I think was really going on with those films. **ANNOUNCEMENT**, added 1/13/16, *Personal Ad*. The guys and married gals don't need to read this one. It's got to beat Match.com, and if not, at least it's free. added 1/11/16, *Noam Chomsky is and always has been a Spook*. I have appended a long email I received from a reader—a reader who was a graduate student in linguistics at MIT. He confirms my reading of Chomsky, adding some tasty bits. added 1/8/16, *Steve Jobs: Bold, Brilliant, Brutal. . . Fake*. We find that everyone involved in the Apple project is not who you were told. added

1/1/16, *Fidel Castro: CIA Agent*. Where we learn more about Castro, John Wilkes Booth, Gram Parsons, Harry Belafonte, and others. added 12/28/15, *Elvis Aron Presley: Intelligence Project*. I have added photos from Elvis' movies *Kissin' Cousins* and *Double Trouble*, see p. 23.

added 12/26/15, *Eugene Debs: Secret Agent Man*. Where I out Debs and the Socialists, the Anarchists, the Pinkerton Agency, Mormonism, the Homestead Strike, the Haymarket Affair, and the death of President McKinley. Basically, the entire 20<sup>th</sup> century was a bad movie.

added 12/17/15, *Elvis Aron Presley: Intelligence Project*. A long paper that will likely blow your socks off. It surprised me, and I wrote it. added 12/11/15, *The Tate Murders were Faked*. I have added a couple of paragraphs showing Sharon Tate's death certificate is fake. Also several other anomalies on that document. See p. 48. added 12/7/15, *Proof of my Train Story*. Some people have questioned the story in my bio about drawing a train with perspective as a small child. Here is the proof, direct from my babybook. added 12/7/15, *Looks Like David Irving is Jewish*. So what, you say? He is also the world's most famous Holocaust denier. added 12/1/15, *Noam Chomsky is and always has been a Spook*. Extensive web research shows some very strange connections with Chomsky, strongly indicating his spook status. Includes bonus outings of Rudolph Rocker, George Orwell, John Kenneth Galbraith, William F. Buckley, Daniel Ellsberg, Dwight MacDonald, William Sloane Coffin and others. added 11/28/15, *What's Wrong with Naomi Klein/Naomi Wolf?* I show you how even these people you seem to agree with are used to misdirect you. added 11/18/15, *How to Deconstruct a James Bond Film*. I show you how the new Bond film is a sign of the split in Intelligence. [etween old money intelligence and new, latter, which is private and not state doing its best to expose the former: a turf war. Possibility that the system will relax, though even the 1960s were full of false flags. Miles doesn't consider worldwide Jews; but he does think there's not enough money for endless frauds. At least I think he's saying that.] . added 11/15/15, *Outing Jack London in all ways*. We deconstruct one of the worst fake bios ever. added 11/11/15, *Custer's Last Stand was a False Flag*. I have added several pages of new research, including more photo analysis. added 11/8/15, *The Glen Ridge Rape was Faked*. I show you many pages of evidence this 1989 event never happened, including the trial. **NEW PAPER**, added 11/7/15, *Who Stole Feminism?* I use Christina Hoff Sommers' book of the same name to out her as well as both sides of the fake neo-feminist argument, showing they were manufactured to misdirect you away from the real culprit. added 10/30/15, *Custer's Last Stand was a False Flag*. I show you evidence of another probable hoax involving military intelligence; including lots of photo analysis, as usual. added 10/28/15, *The Salem Witch Trials are not what we have been told*. In a second update, we find T. S. Eliot's ancestor on the Salem trial jury! added 10/26/15, *The Salem*

*Witch Trials are not what we have been told.* *Smithsonian* magazine takes only one week to produce a response to my paper, but only adds fuel to the fire. added 10/22/15, *Henry Thoreau and the Modern Magazine*. We look at a recent *New Yorker* article on Thoreau called “Pond Scum”. Also analysis of Kathryn Schulz’s TED lecture. added 10/19/15, *The Salem Witch Trials are not what we have been told*. I show evidence this was an early hoax, pulled—as usual—by the merchants, using actors and agents but this time starring. . . themselves . added 10/17/15, *Kurt Cobain. . . well, You Know the Rest*. Also commentary on John Cage, Buckminster Fuller, and many others . added 10/7/15, *I don’t Believe in Elon Musk*. I compile evidence that Musk is an Intel creation. added 9/27/15, *The Charleston and Roanoke Events were Faked*. I show you a few things the other researchers have missed. added 9/17/15, *Kabbalah, Hermeticism and the Occult*. I go back five centuries and show you that even then you could substitute “Intelligence” everywhere you found “the Occult.” Including a close look at the Medicis and the Rockefellers. **PAPER UPDATE**, added 9/10/15, *Your Faked Local News*. An update on the Johnny Hovey hoax, where I hear from Benjamin Radford at Snopes.com . Go to end of paper. **NEW PAPER**, added 8/31/15, *John Reed faked both his Life and his Death*. Plus commentary on Joseph Campbell, Charles Taze Russell, and others. **NEW PAPER**, added 7/26/15, *The Hippie Matrix*. How the government co-opted the hippie, anti-war, and environmental movements. Including an outing of Ram Dass, Stewart Brand, and Larry Brilliant. added 6/6/15, *The Earth is not Flat*. A short response to a deluge of emails. **NEW PAPER**, added 5/25/15, *The Night Stalker Victims*. Easy proof of another faked serial killer. **NEW PAPER**, added 5/21/15, *The Protocols of the Elders of Zion*. Commentary by request, where—as usual—I take a third side, confounding all previous analysis. **NEW PAPER**, added 4/27/15, *On Chemtrails and Other Topics*. Brief commentary on chemtrails, as well as some updates from my mailbag. **PAPER UPDATE**, added 4/22/15, *Stephen Hawking died and has been replaced*. To create confusion around this paper, someone (probably at the behest of Intelligence) created an internet death hoax for Hawking two days after it was posted. The death hoax got over a million likes at Facebook and was reported on widely in the mainstream press. Curious timing, no? **NEW PAPER**, added 4/17/15, *Stephen Hawking died and has been replaced*. I show lots of photographic evidence that Hawking died in 1985 and has been played by an impostor since then. **NEW PAPER**, added 4/13/15, *Blank Space*. Where I out Taylor Swift and others . **NEW PAPER**, added 4/3/15, *The Boston Marathon Bombing Trial*. I show you that the trial, like the event itself, is fake. Included is a brief analysis of the Gabby Giffords shooting, which is related. added 3/25/15, *The Hidden King: Camelot ruled from the Cave of Merlin*. I have added another 25 pages of explosive evidence, most of it old photographs. Via this evidence, I should change my title to *Hidden Kings*. **NEW PAPER**, added 3/18/15, *The Hidden King*:

*Camelot ruled from the Cave of Merlin.* If you thought you had hit the bottom of the rabbit hole, click on the title here. Take a deep breath first, though. Go to p. 12. NEW PAPER, added 7/25/14, *Who IS Ted Bundy?* Bundy family members. Argues that fear and destabilization were goals of intelligence. Partly to increase demand for unnecessary things; partly to retain uplifts. Not who you think. ## Miles Williams Mathis. Introduction for People New to His Work.

[Back to top of this page]

**MY VIDEO (LEFT) outlines Mathis to learner revisionists, in an hour.** The site searcher (above) is useful for locating his analyses, as he has 500+ papers and there's a lot of overlap in the contents. So please use the searcher! It has more detail than online searchers such as Google.

**NEWCOMERS to Mathis:** (written 6 May 2020) We have a new piece on **Isaac Newton!** There's less on astronomy and science than I'd have guessed, and more on ancestry (including Odin!) and housing, and intelligence, with Newton as the equivalent of 'N' of MI5, and carrying out several projects, such as promoting Arianism as a divisive project, and alchemy as manufacture of gold, though my guess is this must have been attempts at extraction and purification. Mathis has taken some trouble over predecessors of Newton in telescopes and mathematics and the inverse square law, which surely is rather obvious, the area of a sphere's surface being the square of the distance from its centre. Some of this material must have been borrowed, but it's his choice not to mention such things. He's

good on a large range of topics, including creation of colleges, academic appointments, coats of arms, Catholic property takeovers, portraits, 'chai', Whigs and Tories as fake opposition, and huge frauds such as the South Sea Bubble usually attributed to Law. Mathis doesn't think much of calculus, and claims to have a much-improved version. I'm not sure (and I have a maths degree).

Wonderful Mathis at his best.

It occurs to me that such people as Joseph Priestley (of carbon dioxide and oxygen) and the Lunar Circle/ Society must have had an infusion of 'intelligence' in the spy sense: the 'French' revolution occurred in the middle of its existence. Surely something similar must be true of Lavoisier ('the voice', perhaps) and his chemistry and execution, real or supposed? Look for Freemasons and Jews.

**NEWCOMERS to Mathis:** Worth reading: **Henry Ford** as controlled opposition. *Dearborn Independent* as an obvious source for information on Jews. Some of this in hexzane527's writings.

Note that **Lindbergh** came from a whole genealogy of frauds, apparently Jews from Sweden. His fake plane was advertising for air transport promoted with a book. The baby murder was probably faked; not a murder at all, but avoiding an embarrassing surplus child. Mathis doesn't examine Lindbergh's oratory; he just states 'It is more likely his speeches were simply a pose, made to manufacture the opposition.'

Note that Lindbergh as indirectly promoting war with Germany is *not* as far as I know in Mathis. I haven't found, even in Hexzane527, an interpretation of Lindbergh as controlled opposition, something Kevin MacDonald would hate.

**NEWCOMERS to Mathis:** please look at his 15 March 2020 piece here [phoenper.pdf](#) —**Where Did All the Phoenicians Go?** A brilliant piece encompassing much of prehistory, so far as it survives in writings—including the Odyssey, Hittites and the iron age and monopoly of iron, Troy and iron and silver in what's now Turkey, Persia, the Phoenician and later alphabets, Alexander of Macedon, Thucydides and other liar-historians, Sparta, and the likely-true histories of many more-or-less mythical names from the ancient Greeks. And rearrangements of wars and battles, deleting doubtful wars and reinterpreting changes in 'elites'.

It's useful to be reminded that iron was a serious improvement (or 'improvement') in weapons technology. (If you don't believe me, watch videos on knife and machete killings. Here's 'Warlords of Mexico'). In its day, iron working must have had a similar affect to the invention of gunpowder.

I'd be particularly pleased if classicists could do serious work, though this would no doubt exclude the Mary Beard type.

Newcomers might look at [guru.pdf](#), **What I Finally Understood**. Not everything, but the famous people, ALL there to misdirect you. He's mostly talking about people like Chomsky and Lyndon La Rouché. Includes well-worth-reading description of TV discussions on gun control in the US, with material on Smith and Wesson and its ownership and sales. This is tactics rather than strategy,

easier to understand and at a lower level than Jewish and Freemason long-term policies.

Sidenote on art dealers as money-launderers and promoters of fashions and fakes: this is part of Mathis' attitude to the 'art' world. Worth noting that Ernst Hanfstaegel, son of a Munich art dealer, and himself an art dealer in 45th St and 5th Avenue, seems to have been involved in financing Hitler and disliking the 'Allies' in 1916.

(Which remind me of 'Brexit' discussions on the BBC in Britain, with godawful actresses reading their scripts; no overview information ever, and in any case Brexit must have been decided—since there are never 'debates' on important issues such as population replacement or wars. For Brexit as a long-term Jewish part of World War 3, see Hexzane527).

Dec 10th 2019 has a piece by **Leaf Gerrit** (I haven't attempted to check if that's a real name) on a **faked Greensboro massacre**, in 1979. I liked the piece, which looks at a Jewish-owned denim cloth mill, where protestors were swamped by fake KKK and other types, with a faked shooting, effectively wrecking the protest. Includes Maoists and joke tombstones and family relationships. (I think the nuke stuff is wrong, however).

**TWO NEW TOPICS** (Oct 2019) are meuse.pdf. Its Title is: **The Battle of France** which examines the official World War 2 story of the 'fall of France' in a few days. Just a small part of the huge war. It's impossible to guess how long it will be before the war is untangled; if it ever is, since of course Jews love lying. It's not a new idea; but it's new to have detailed analysis. My site big-lies.org also has my piece big-lies.org/how-master-race-won-ww2/ (long) and big-lies.org/hexzane527/ (from a French site).

and MWM has new pieces on Norway and its oil money, royal family, and campaigns to spend money on weapons, and hand it to big organisations. MWM seems to know more about royalty than royalty know themselves.

**REPRISE** (((British))) media are repeating their rubbish about the Nov 3, 2018 Pittsburgh synagogue fake shooting. Includes rich array of number markers, and Trump's alleged reactions, suggesting it's a Jewish attempt at a fake war. Plus genealogy and biog. **(Repeated from the list below).**

Cuba and the 1962 'nuclear crisis' and Guantanamo: MWM deduces from the fact that Castro and Guevara were rich 'marrano' Jews, and there's at least one US military base on Cuba, that the whole thing (including Guantanamo) is faked for the Jewish media.

Dresden bombing. Interesting piece showing MWM's originality: the possibility that Dresden might have been used for propaganda, rather as the fire-bombing or Hiroshima and Nagasaki were used. Looking at supposed photos (mummified or old remains; fake of Dresden after bombing, according to MWM though I was uncertain, it may have been exaggerated. Possibly in my view as a distraction away from such things as Eisenhower's Rhine murder fields.

Lindbergh. I noticed TheOccidentalObserver had a comment on Lindbergh, accepting the myths (also in *The Culture of Critique*). Type Lindbergh into my search box; there are at least ten separate pieces to that puzzle.

Lithuania. Here's a good example of a topic which is generally unfamiliar in the west, but has powerful lessons for students of Jewish infiltration. (Dalia Grybauskaitė of Lithuania seems to be a present-day Jew in the fashion of Merkel and May). Lithuania has been in the mid-distant past a far larger country than now; don't underestimate it. Use the search engine above to burrow into its history, in particular of royal lines where vast transfers of land were possible.

Poland of course is another target for revisionism; it has been through many changes, with its vague boundaries. Poland had more 'Jews' than any other country at one time. Venice, Italy and the Medici family; France and the 'Revolution' and Napoleon another; Russia and its aristocracies another.

The box immediately below has some explanations of [hiller.pdf](#), [lenin.pdf](#), and [trump.pdf](#), plus the Harry Potter Hoax, a paper on the Bushes, and a series of papers linked by one large subject. For people new to Miles Mathis, wanting to ease themselves in. For a surprise try his Stalin paper, [stalin.pdf](#). at this date (19 Apr 2019) his most recent paper—though six days later it barely shows on google. v. 2019-April-26 v. 2019-Aug-09 v. 2019-Sep-10 v. 2019-Oct-26 v. 2019-Dec-13 v. 2020-Jan-20 v. 2020-Jan-26 v. 29 Feb 2020 v. 11 Mar 2020 v. 19 March 2020 v.1 May 2020 v. 6 May 2020 v. 28-Jun-2020 v. 10-Jul-2020 v. 2-Oct-2020 v. 28-Dec-2020 v. 1-Apr-2021 v. 19-Jul-2021 v. 2 Aug 2021 v. 14 Sep 2021 v. 23 Nov 2021

- **911, 9/11** I've seen it claimed that Miles has no opinion on 911. In fact, searching for 911 yields [link.html](#), [strike.pdf](#) (911 and Obama's birth), [parrish.html](#), [chom.html](#) (2006 emails), [naomi.pdf](#), [911.html](#) (links to seven papers on 911; including the chomsky one), [rs.pdf](#), [barindex2.pdf](#)—those are just the first eight. His html papers tend to be old; maybe they were undiscovered by superficial 911 searchers.
- [hiller.pdf](#) Important and highly original piece on ancestry of **'Nazis' (Germans heading the NSDAP) and their name changes**. 'Hiller' as likely real name of Hitler, and plenty of evidence on Goebbels and other rich members of the so-called Workers' Party. Mathis maintains that the entire Beer Hall putsch was a fake. (In my opinion, in view of what Jews did to Germany, Hitler was moderate, which would explain his support; the Holohoax material was made up later, to hide Jewish war crimes).
- [lenin.pdf](#) **Lenin - was Russia partly run by Jew 'aristocrats'?** Highly original view of the 'Russian

**I first read Miles Mathis in 2014**—I'm sure, because I emailed him on 15th September in some excitement.

Some of his methods and results are incorporated in [big-lies.org](#).

Examples:

**In big-lies/jews**, here Online sites and methods

In [big-lies.org/jews/articles-on-jews](#), here The Battle Against Miles Mathis with some

Revolution' or Jew d'état. Takes the view that the 'Russian' aristocracy had already been invaded by Jews. And that the whole story of the 'Revolution'—Kronstadt sailors, and Rosa Luxemburg, for example—was a staged fake. (It occurred to me that Russia may have been covertly taken over with the fall of the Godunovs, but I haven't attempted any work on this. And it was suggested to me that there was a secret 'Balfour Declaration', secretly partitioning Russia).

- trump.pdf **Donald Trump presented as another Jew or crypto-Jew, with fakery of many kinds**, including in vote-counting. There may be items here that Mathis has spotlit, possibly unbeknown to himself. One is his assessment that the whole voting system is more or less faked, which he claims to have proved mathematically
- potter.pdf **The Great Harry Potter Hoax** (May 2016 + later bit(s)) is an interesting introduction to Mathis's work. He says his method is to start with some likely topic, which, if he finds a few red flags, he then pursues, mostly from online sources. Usually these are more-or-less public: war crimes, mass murders, immense frauds, deep swindles, genocides are generally hidden from everyone. His view from Texas shows Britain in an unfamiliar light, with for example Bristol and King's Cross in north London as hubs of secret military and intelligence establishments. He neatly ties together the BBC, Guardian, Rothschilds, and Bloombury Publishing and people like Salz. In my view he leaves 'fascist' unanalysed. He thinks Rowling was probably a front for a team of writers ('word niggers' in US English), charged among other things with ensuring that most people ('muggles') are a separate caste from the enlightened wizardry, who have tricks to baffle and confuse the populace. This of course is similar to the 'chosen people', 'elect', and so on, though Miles doesn't labour the point. He is unimpressed by the publicly-available information on Rowling, and rampages through accumulated BS, including Scottish ancestry and faked photos, which, as a portraitist, he identifies with great confidence.

I recommended potter.pdf as a sample of Miles Mathis' work, on a popular subject. He doesn't speculate as to why powerful organisations should

online emails from critics

In **The 'Master Race' Won WW2**, here More on Miles' methods

Here's a mention of the **three-way war between Jews, Catholics, and Protestants** in early-christianity-bible.html

This piece on Jews in Sweden berg.pdf looks at Ingrid Bergman and (obscure, anti-Christian film director) Ingmar Bergman. Many, many family and Jew interconnections. Incidental sidelights include E Michael Jones

These examples are biased to 'Jews'; but there are many diverse topics. Note: my site is not a complete one. I'm unsure in fact how to proceed. It's possible his site might be removed. But I do hope I'm helping people understand the importance of Miles Mathis and his encouragingly high

put so much energy into children's books and film. Probably, along with the invention of the propagandist *Independent*, it was **to distract from mass deaths and destruction in Iraq and Afghanistan.** Vast audiences watching (((English))) actors is one way to do it. Rowling's subsequent work (e.g. with a black African social worker spreading her wisdom to whites) is standard Jews stuff, as far as I've bothered to look.

- **Roger Waters** is found in pratt.pdf, bush.pdf, and mlk.pdf and other files. Roger Waters said in a Norwegian interview that he came from a north London middle-class family, middlemen in 'fancy goods'. Art dealers? Clothes importers? Who knows. North London has many 'Jews'; I'd expect Mathis' belief that Waters thinks he's a Jew is correct. I noted down some of what Waters said in his interview: "... all human beings are descended from the first Homo sapiens - who were from Africa - and we have spread out all over the globe to different parts of the globe - we look different, but that's caused by weather and other things that have happened to us - we are all related one to another - we all carry the same DNA - we are all related - we are brothers and sisters..." which sounds Jewish, ignoring the genetics of aggression, and possible evolutions into parasitism. 'Brothers and sisters' hundreds of thousands of years apart?—H G Wells said exactly the same thing; possibly Waters is echoing some childhood reading.

Waters mentions endless wars, but not Jewish paper money since 1913. Pink Floyd's work can be read, rather irritatingly, as insisting on children not wanting education, adults wasting their lives in dull days, people being bored by accounts, and knowing nothing about Talmudic stuff and inherited religious absurdities. *The Wall* says 'the wall' should be smashed down—but does not mention that there are boundaries between races. Its entire treatment of WW2 is the death of the father of the boy in war, but omits heavy bombing of Germany, and Jew mass murder in the USSR/Russia, and of course has black and red livery.

- **Just my guess:** Watching some 'Rolling Stones' (pop group) videos, including Andrew Loog Oldham

number of associates.

:

Alexa (which doesn't reveal the source(s) of its figures) seems to have been working against intelligent websites. Or maybe Google etc have been working overtime to stuff in junk sites and fake many hits onto them.

explicitly identified as a Jew, it occurred to me that both the 1965 Berlin concert and the 1969 Altamont 'Free Concert' might have been psyops. (MWM has not written on these; I think he has more interest in US music). Berlin was of course under full Jew control and with massive numbers of informers. They must have known the males to be there, and no doubt choreographed the action, as with 'Antifa' rentboys now. MWM wrote about Manson (Aug 1969) and Kent State (May 1970) and their fake killings. Similarly with Altamont in Dec 1969; many US 'free' things are automatically suspect, for example the free *New Yorker* issue to promote the fake of Hiroshima, as may be the supposed deaths and the supposed Hell's Angels. And the free TV 'moon landing' fake of July 1969. Perhaps Brian Jones murder (1969) had some overlooked Jewish link. Keith Richards' presentation as a long-term druggie immune from the normal effects of drugs must be suspect. The androgynous presentations of Jagger and other things suggest Jew psyops. I suppose Jagger might be a 'gay' surrounded by a distracting forest of sex stories. While Vietnam was being bombed and burned, and attacked by chemical warfare, and the women raped, the Rolling Stones, NASA, and the 'intelligence' 'services' ponced around.

- The Dreyfus Affair (c. 1894-1906) was a mostly French blackwash reversal trick, to condemn Jews, then follow up with a fake 'reveal' continued until a high enough percentage of the gullible were convinced of Jewish innocence. Bertrand Russell believed the innocence story (see *Dear Bertrand Russell*), even after two world wars and Jewish destruction of Russians and Germans. Hilaire Belloc noted its propaganda force, but as far as I know accepted the idea. The pdf Dreyfus is very well worth reading. The media techniques are different now, which makes it relatively easy to take an unbiased view. The author of the piece is recorded as Josh G, a Jew. He misses what may have been the distraction of Dreyfus from France's cruel militarism in Indo-China, i.e. Indo-China, Vietnam and Cambodia, and north Africa. His piece may have been a bit of promo for a museum in France, presumably a Jewish thing.

- I've just relocated bush.pdf **I think the first record of all the (((American))) Presidents being Jews.**  
Dated 26 Sept 2017. Note that a young girl is on the 'mainstream' junk media as having discovered all but one presidents are related (to an English monarch of long ago; Jews and Freemasons not mentioned of course). I'm just checking—12 yr old BridgeAnne d'Avignon, 'helped' by her granddad, is quoted, dated August 2015. And of course aristocratic genealogies have been compiled since the inventions of writing. But I'd guess Miles Mathis may be the first to state and provide evidence for Jewish common roots or beliefs. Not in the junk media, of course.
- phoen.pdf **Ancient Spooks. In 5 Parts** by Gerry, from Germany. Here's what may be a very important series, in five parts, aiming to discover who the original Mediterranean-based people were, who invented global-ish shipping trade. Notable for the huge span of time—many thousands of years.  
22 sep 2020 - Gerry has a site **ancient-spooks.de** Gerry uses images from Internet, for example showing museum exhibits to throw light on hand gestures, clothing, and assorted iconography. And aerial photos and maps of islands. He includes textual analysis in Egyptian and related languages, and looks at verbal puns, showing them in the 'Old Testament'—this looks highly original to me. And includes what may have been ordinary flies, judging by the wing shape of the metal artefacts, suggesting 'Lord of the Flies' referred to the boss of flies-on-the-wall, presumably quiet, ignored, spooks. These seem to have been promoted later to gold bees. We also have cedars of Lebanon, ideal for shipbuilding and not available in Egypt. And islands, a topic on MWM who refers often to the Isle of Man, Anglesey, Zanzibar (of Muslim slave dealers). Here we have Mediterranean islands, Sardinia for example. And colonies on the shores of the Mediterranean, in Spain for example. Plus what's known of these towns' names.

**The conclusion isn't new: these people were Phoenicians.** I think the suggestion is that Jews lived near, and may have taken over (perhaps with later money gained in eastern Europe). Thus

thalassocracies, plus European geographic regions, plus oriental land routes made the northern part of the old world. Subdivisions were fairly natural, until synthetic, made-up empires and religions and currencies and wars came along. Or something like that.

- A few more, at random: **Irvin and Seeliger**, on gnosticmedia, trying to discuss the Salem 'witch trials', whom Mathis detects as from rich families, with a standardised logo and unimpressive thinking and speaking styles. (Much of Mathis' work is involved in disentangling family relationships, often from aristocratic families, where there tends to be money and interest in establishing ancestry—and concealing it; **Alamo** (by DK and LG) and **Mexico** '... the Alamo kicked off the Texas Revolution and the establishment of the Republic of Texas as a sovereign nation. A mere ten years later, Texas was annexed by the U.S., which triggered the Mexican-American War.' Or that's the official view, but our intrepid revisionists find reasons to believe much of the narrative must be untrue. (Eat your heart out, Phil Collins!). [aoc.pdf](#) has material on various Spaniards/Marrano Jews, including Don Quixote's author. Ted Bundy as a TV star mass killer ([bundy2.pdf](#)) appears to be yet another well-connected actor. The **OK Corral** 'wasn't even known about until the 1930s...' **Rosa Luxemburg** in fact a Jew from Poland; another Jewish supposed 'left-wing' hero. **Ezra Pound** appears in several pdfs, and is outed as a probable 'spook'. [vote.pdf](#) looks at election fraud; Miles has what seems an extreme view, which seems to be that Trump is several actors. President Woodrow Wilson (puppet of Jews, made to push the USA into war), Eugene Debs, Goldman Sachs, Warburgs and eventual USA Central Bank, **Cuba** as a Jew-controlled fake, **John Reed** in [reed.pdf](#) ...

Here's a meta-op noted by Miles Mathis:

[mandela.pdf](#), the so-called **Mandela Effect**. It has other names, for example the Berenstain Bears pseudo-phenomenon. This may be an intentional move to persuade people their memories are faulty—in practice, usually what Jews don't want. [mandela3.html](#) looks at the lack of braces on the

teeth of a James Bond film girl (the HTML format allows animation). Anyone who uses (say) Google to search, may fall foul of some algorithm which includes these supposed anomalies. It's typical of the low-grade Jewish adolescent mind that the supposed effect is 'explained' by 'time lines' getting mixed up, or something: Einstein, nuclear weapons, and NASA have given Jews considerable faith in the gullibility of most 'goyim'. And it's largely justified.

Please, please poke around. I've set the site searcher to a long setting, to give a good feeling for the contents of the pdf files.

May I recommend, to anyone interested in deep revisionism, that you download some or all of these pdfs? They may become targets of censors.

**Christchurch, New Zealand supposed shootings. What can be concluded from these events?** Miles has three files so far.

**xchurch.pdf.** By 'Uncle Owen' with comments in green by Miles. Computer evidence that the whole scheme was pre-planned, with dated press releases, some sent out early (a bit like J K Rowling books, it occurs to me). And the plan changed from 4 shooters to 2. Amused stuff on the ordinary lower-income white male 'not very interested in education'. Some emphasis on the remarkable names on the guns and parts, which seem largely to be obscure battles over centuries in the near east probably with Jew interest, but may imho have other meanings—signals to supporters, perhaps?

Aramoana in NZ was a site of an earlier fake shooting. A woman's name may have been taken from the place.

**xchurch2.pdf.** Miles Mathis on John Podesta. And 'Jack from the Antipodes' on Jacinda Ardern, who is a sort of career Jew puppet politician, only there because New Zealand has a partial PR (proportional representation) system, in which voting for a party means voting for a party list, with Adern put at #1 on their list. Ardern's ancestry is detailed, and worth doing, revealing the customary network of Jewish families. Note that poverty is suggested by the brief life histories (in Wikipedia, for example) where 'baker' can be conjectured to have been substituted for 'banker', 'shepherd' for owner of vast sheep farms, and so on.

Ardern had a photoshopped nose job (i.e. medical operation to change its shape) they claim, and indeed different photos show different size/shapes. The authors don't seem to think much of the claimed sexual oddities of Ardern, and it is possible the frontal video (by someone walking backwards, unchallenged, central focus being below her waist) was staged.

**xchurch3.pdf.** 'Uncle Owen' again, who looks at Tarrants and concludes: *I have shown you a lot of evidence that what we have here is a rather large cast of top Jewish families, wealthy from the day they set foot in Australia, sending a branch of the family Rothschild-like to Ireland to then claim that is where they came from and that they are good Irish Catholics. But there isn't a Catholic (or Christian of any kind) in 250 years of their family trees! That takes some doing, and shows that this is the predominant Jewish clan in Australia, crossing both sides of the line between legality and illegality and involved in ... far more than ... two serious fake mass shootings!*

**These three papers include the following factors.** (They are not not quantified in order of importance by me, or them). [1] Anti-white stuff for southern hemisphere. No mention of Rupert Murdoch in Australia. The fraud was world-wide, as far as I know—the BBC emitting its usual trash with failed actors reading their anonymous scripts. To boost anti-white feeling, in the usual Jewish way. But of course they don't include white activity arranged by Jews, such as genocide in Vietnam. [2] Jew billionaires or trillionaires wanting to move to secure bunkered homes. Presumably NZ is viewed as very safe and secure. I've noticed obscure suggestions that rich Jews (their 'aristocracy') are irritated with their low-grade fellow 'bourgeois' Jews; could it be they want to get rid of them? [3] Corrupt NZ police. Unquantified, and too vague for my liking; it's stated that many New Zealanders are uneasy about police crime. But this may just be part of anti-white smears. Or it may be a comment on police being unwillingly forced by Jews into absurd actions. [4] Other corruption: automatic weapons already banned, so the aim may be to increase gun sales. Fake victims getting life insurance payouts could be another motive. Again, these are unquantified, except in the sense that gun sales in the USA are stated to have increased sharply after scares. [5] Trying to get Muslims viewed sympathetically! (Lol, I know). I'd guess this is connected to Jewish liking for Islam, which was made up originally by Jews anyway, for thug armies. Note likelihood of Mossad/ Intelligence 'communities' controlling the mosques (all they need is an Islamic-appearing carpet and some pathetic 'Semitic'-looking 'extras'), and controlling fake 'refugee' schemes along with crypto-Jews in Arab oil countries. Whether NZ intelligence and other agencies are as keen to flood their countries with inassimilable aliens as Jews, I don't know.

[6] Mathis and the others like numerical codes. But with videos perhaps these can be supplemented—It's suggested one finger represents I, for intelligence, and the thumb-and-index-finger plus trailing fingers represents 666. Trump uses these hand gestures often enough, but doesn't say if they signify anything.

Miles and his mates all take the view (I think) that this is an action by networking Jews in New Zealand, not a worldwide action, as for example the world wars may have been. I may be wrong here—the project has been shown in the US and UK, for example.

**A missing piece is the possibility the whole fraud is a distraction:** Yemen has a war, Israel has a war against Gaza, the (((US))) has wars in Afghanistan and other places—I can't even list them. France seems poised on war between French and

((French))). The (((US))) continues to encourage illegal immigration. The Jews May and Bercow are doing things about the jew-controlled EU. Many (((news))) sites shriek about the 'Golan Heights'.

A copy of the original video is here, on Bitchute, but there seem to be different versions, e.g. with 'shell casings' ejecting and disappearing. **Christchurch supposed mosque shootings video, New Zealand (full 16 min 56 sec)**

## Miles Williams Mathis. One of the Foremost Revisionist Intellectuals Today?

**Update on my reservations about Miles Mathis: January 2023:**

Josh in Uncategorized

Hi Everyone, I'm back! Just in time for the annual 'Best of'. Please write in comments below your vote for the best paper by Miles and the best guest paper of 2022. You have until midnight 12/31 to cast your ballot. No mail-ins allowed. If you are a new commenter please write in your vote and use the 'contact' link at the top of the blog to notify me and tell me your username so I can approve the comment.

I also want to take this as an opportunity to apologize to all of you for being absent and unavailable for far too long. I can imagine that commenting here became quite frustrating at times — far more than usual. I have reached out to a couple of people asking for help in moderating. I also want to move us to a proper forum. Somebody wrote to me suggesting a platform for that, but I'm having trouble finding it. So if that is you please write to me again.

A little bit of background: the site receives many spam comments every day, sometimes dozens. I'm not talking about the spam advertising comments that are caught automatically by Akismet and sent to a spam folder. The ones I'm talking about seem to be generated by bots posing as people who want to comment on the blog. They have become relatively easy for me to spot. But they frequently come in waves one right after the other. The blog is set up so that new commenters always go to 'pending' until they have had one comment approved. So every new user trying to comment has each comment go to a comment pending folder. This is also true of established users whose comments randomly and not infrequently go to this folder, for reasons I have not been able to understand. Now, every time a comment goes to pending, I get a notification about it in my e-mail.

To keep up with comment moderation, I have to go through the pending comments to separate out the attempted bot comments from the real user comments (new and existing). When a bot tries repeatedly to leave a comment, I

have to enter the username and/or IP address to a block list before it spins out of control leaving a crazy amount of comments.

I got really busy earlier this year and let it slide for a few days, at which point it felt overwhelming to deal with, so I let it sit for a few more days, which only made the situation worse, making me more reluctant to deal with it. After a while, it was just too much and I felt complete dread at the thought of trying to clean house and getting back into the habit of sifting through a bunch of pending comments every day – not to mention facing whatever justifiable frustration and anger many of you are probably feeling.

But I made a promise to myself to get back in the saddle by the end of the year. There are currently 2,229 pending posts. I'm not going to go through them, so I am hitting the 'reset' button so to speak. If you are a new user who hasn't been approved, you can leave a comment then use the contact link at the top of this form to notify me of your comment and username so I can approve you. If you are a veteran commenter whose comments never saw the light of day – I'm sorry! But I won't be digging into the folder to fish them out.

And with that, I wish you all a Merry Christmas, Happy Channukah, and all around joyful holiday season!

It seems that 'Josh', presumably Dr Joshua Guetzkow, at some Jewish Institute of Criminology has complete editing control over posts to cuttingthroughthefog, the only site Mathis posts on; who knows how much good material has been lost?

Or how much material originated from Israel. It's impossible to know; but let me ask some legitimate questions:

On Jewish fantasies, of the Talmudic and more obscure sort that Bjerknes does his best to reveal, there's nothing in Miles.

On history, if Miles takes material from Jewish sources, the natural expectation is that Jewish crimes will be unmentioned. And indeed there's nothing (or little) on major wars (WW1 and WW2. THE US Civil War includes many of the leaders—Lincoln for example—but not much on Jews' activities in the USA despite the high chance they helped cause it) but rather on the sort of thing minimising violence—Jews in China and Japan (new to me) but emphasis on non-existent battles rather than heavy bombing and firebombing. The Chinese translation of *How Jews Took Over China* attributed to 'Josh' is top of my admittedly small list of translated files. Something tells me the forgotten facts of large-scale killings play no part in that article.

Nuclear issues are barely represented in Miles, except for one not very original piece on (from memory) supposed tests in the Pacific. He never refers to nukelies on my site, which has been there for a similar time to his material. Although I helped moderate it, the nuke material has at least eight good contributors. My part is mostly the skill needed to rebuild most of it after Jesse Waugh removed it. Similarly, Miles says nothing about the Vietnam War—or

the rubbish online from ‘veterans’ and others; VT (I think it’s called) recently ran a piece saying the US is robbed by overseas countries! As an excuse to no mention Jews. The point is that the evidence for Jews paying US war criminals for atrocities is avoided, possibly systematically, by Miles. On economics and politics, he’s had little on actual frauds and methods. His FTX piece ridicules Bankman-Fried, reasonably enough, but shows little Jewish input. Nothing on who was swindled. As with the Dreyfus Case, there’s a lot on how clever and multiple-media it was, but little on the effects of Jewish actions. On biology, there’s been little by Mathis on Covid. Which of course is consistent with Jewish suppression of what non-Jews view as criminal corruption. It’s possible that Miles’ science writings (some in books; some online) came from Jewish sources, of which there must be masses of secret evidence. I don’t suppose I’ll ever know, as he annoyingly won’t talk.

I don’t want to make a complaints list here (I did something of the sort with Kevin McDonald) but as far as I know all his new ideas must be suspected of being mediated through Jews. So be aware of that; watch for it. And have a ‘joyful holy day season’.

Downloads of Mathis PDFs on my own site. Not much connection with milesmathis.com. . Start of 2017 - end of 2021. The choices are intelligent, but the numbers aren’t large.

**I’m not connected with Miles Mathis, except in the sense of aiming for truth. I never met or spoke, and rarely communicated, with him. I wish he’d talk online, but he simply doesn’t. (I’ve texted/emailed with many people—on diet, physics, nuclear stuff, education, religions, history, biology—but most are equally unchatty). And I’m uneasy with the poor quality of what seems to be his only supporting website, cuttingthroughthefog.com (which I criticised as addingtothefog.com).**

**My difficulty with Miles Mathis is what I see as his lack of exposure.** He's been told he gets large numbers of downloads from his site. But he seems not to know that many of these may be junk visits—from 'spooks' or unemployable Jews or timewasters—or people looking for new ideas, or looking for ideas to combat. (My own site's nuclear truth has never been mentioned, that I know of. It's certainly censored in Japan). He says that his Abraham Lincoln piece sparked off some counter-activity, as did his piece on Stephen Hawking. He was probably right; but as far I know received not an iota of publicity for himself. Very few sites list him in their 'blogrolls', however relevant his work is. Kevin MacDonald's site is typical in this respect. It's painful to see websites posing as serious that show no knowledge of Mathis.

**Very few people are able to put in the work needed to examine an author as prolific as Mathis and his co-writers.** Online attempts, such as RationalWiki, are laughably weak. Nor will they debate. For many people this is hard to explain. In fact it's a common pattern. Supposed experts, under the Jewish 'education' system, risk everything by debate. I've seen this watching the late Dr Harold Hillman, who, despite great efforts, could never get serious debate with any medical researchers—including both the journalistic types (such as Richard Dawkins or Susan Greenfield) and academic and medical researchers. Supporters of Edward de Vere never engaged in debates with conventional believers in 'the Stratford Man'. Nobody discusses Jane Austen with Nick Ennos. Same with Darwin supporters vs A R Wallace, and conventional Pasteur medicos vs. others.

On Harold Hillman, I've personally supported his work online; if you've heard of Hillman, it's because of me. I saw that cuttingthroughthefog.com refers to sites which have learned from me about Hillman, but keep this secret. This is Jewish behaviour. There are almost endless lightweight supporters of Jews. Some are Jews doing what they've always done, not sheeple so much as hyenas and lampreys. Many others are rented crowd-filler types, of the sort funded by Schwartz/George Soros: 'Black Lives Matter' is typical. These types are not new; Edward Gibbon mentions them in his book on the Roman Empire, though without being very clear.

**But these are tepid issues compared with Jew-related issues,** including money, wars, official religions, freemasons, historical events, and long-term censorship. 'Holocaust revisionism' and 'pogrom revisionism' are two issues which have become popularised through Internet since about 2000. In my opinion, one of the trickiest topics is Second World War revisionism, where Jews make huge efforts to conceal the likely truth. Takeovers of entire countries—Spain, Netherlands, England, the USA, the Russian empire, China—and those are just relatively recent—are lied about to nearly the same level.

**The present world system for up to thousands of years** has relied on many components: 1 literacy, since communication is needed over distances; 2 money, which allows power to be concentrated, at present largely as paper money controlled by Jews; 3 some technical control, which is usually carried out by (in

effect) mercenaries; 4 laws and legalism, since property rights in such assets as land and mines need fairly precise control; 5 fairly efficient travel which for aeons meant ships, but now has roads, rail, canals, and air; and 6 'education', which involves propaganda on a huge scale. 9 Secrecy is hugely important; judging by the past, effective opposition to Jews and associated parasitisms will only emerge from secret organisations. I doubt if any of these things were ever controlled very accurately. Radio and film and TV must I think have been tried out and experimented with empirically. I don't think anyone could have predicted confidently that masses of people could be fooled into believing in life after death, or that actors and oratory work, or collapsing towers, or COVID. In my view there are technical reasons for impending changes in outlook. An important fact is the increased recognition of digital technologies. The vast combinatorial possibilities of atoms and molecules, of DNA, of large numbers of people and their interactions, make statistical approaches to problems potentially important; not just simple calculations. Leibniz and Newton point the way, by their advances over arithmetic, to new types of understanding. Artificial intelligence hasn't (as far as I know) done much so far; climate modelling has potential, though, as has happened in all sciences, it has been handicapped by Jewish interference. This sort of thing is not very interesting to many people, including Miles, though he does look into mathematics. There must be breakthroughs waiting to analyse the proportion of assets shanghaied by Jews, for example. Identification of Jewish sectors would be a step forward, something like the invention of national income accounts.

As regards Jews, please understand that they **constitute a distributed nation, scattered around the world, but concentrated in some cities and towns**. Don't be taken in by the claims they are only a tiny percentage. This is easy to overlook; most people don't know, or care, or understand that there are bunches of Jews in different places with similar attitudes. In each town they inhabit, they tend to **the 'Kahal' system**, run by Rabbis, in which they secretly arrange to target local 'goy' victims, the right to act depending on payments to Rabbis. Where secrecy is not possible, they organise a few local people on the Freemasonry principle. This principle includes religions; Christianity and Islam were both founded by Jews and collaborated with them, while pretending not to. When they seem to have sucked what they can from the locals, they may move, sometimes making a lot of noise in the process, often enough not in fact moving, and often enough secretly supported by nobility and educators. For example, Christianity was based on land ownership and many local priests, and education in western Europe was mostly a matter of training promising youngsters in Latin and the Bible.

Anyway. How intelligently does Miles Mathis deal with these issues? In my view, very well indeed. He seems aware of all the issues. None of his critics that I've seen begin to address them. Some issues are very difficult to tackle, for example the question of how many people count as 'Jews', and how many crypto-Jews and collaborators there are. How come Jews with privately-owned assets are kept from exposure, while ordinary people are expected to declare everything? How

common is child abuse and trafficking of women among Jews? Are all people in the public eye Jews? How dependent are religions on Jewish 'money'? This sort of thing will remain controversial, perhaps for centuries. What about deaths, famine, disease? It's clear that many decisions on these topics have been made by Jews. It's necessary that non-Jews consider such topics seriously. What view does Mathis take? He discusses faked excuses for wars, but doesn't overview the whole system. But very few thinkers do.

**I'll try to explain where I think Miles has gone adrift.** This seems the responsibility of **cuttingthroughthefog.com**. Looking at dates and figures, I think that site contacted Miles relatively recently and established good relations by buttering up Miles—praising his site, praising his downloads, and so on. I suspect Miles felt isolated and responded with some elation. What information I have (from Simon Shack's site) suggests Josh G is a minor academic in Israel.

I first noticed Josh G in a piece or two on the **Dreyfus Affair**, which in about 1900 was a huge affair discussed throughout Europe. I knew this from my burrowings into the writings of Bertrand Russell and Hilaire Belloc. It came as a relief to me to read Josh G's view, claiming (or showing) that the whole thing was a pro-Jew psyop, and a very modern one at the time, using the new media of film, and cheap newsprint. But it suggested further questions. The reason for inventing the Dreyfus Affair was to sweep Jewish frauds under the carpet, by making 'anti-Semitism' unmentionable in polite society. **But Jewish frauds in France included immense company frauds (to do with overseas canals). Other Jewish topics (of many) included the Boer Wars, European murders by Jews calling themselves 'anarchists', the build-up to the Great War, the formation of the ADL, and the USA Federal Reserve.** Josh G failed to address these issues at all. Suggesting to the critical mind that he was and is just a distraction, giving information probably widely-known to Jews, and probably regarded by them as old and stale.

Another perhaps one-off oddity is *skinhead.pdf*, dated Nov 10th 2016, by an anonymous contributor, perhaps in England. It's an odd piece, based round someone called James Moffat, author under many pseudonyms of many junk books. And junk publishers. What interested me was accusations against Britons Publishing and Arnold Leese. Without going into detail, the anonymous article talks of the 'taint of racism'. Much of this looks correct, but with some sideswipes which of course are typical of infiltrator types. (I just watched an irritating TV thing with a Pakistani woman pretending her heritage was Yorkshire; something similar). Miles has spent much effort on exposing 'serial killers' as generally fraudulent 'intelligence' operations. But he talks of whites in these frauds, no doubt helping white women feel insecure. But Miles (or his Jewish influencers) has failed to notice the very high rate of murders by blacks. It's fairly certain that Jews, with their policy of understating black crime, are part of the fraud to invite white serial killers. But they carefully fail to mention black serial killers. In a similar way, Miles must know about white multiple killers in wars: consider the US Civil War, WW1 and WW2, Korea and Vietnam. Miles must know about large scale killings, but omits them—they were not in CONUS, after all. He doesn't

seem to realise that there is a lot of sound reasoning in favour of the idea of whites as killers. Jews, if they feel the time is ripe, will fan the embers in non-whites.

Another troubling piece is protocols.pdf, dated April 25 2015. Miles says (I think) that they were composed by aristocrats, as a warning or description of the possible horrors of financial power. He doesn't like the idea that they were jotted down by some Tsarist spy, while in a Jewish planning meeting. Given the possibilities of events at Kahals, the jottings or reconstructing notes idea sounds very plausible to me. Miles looks at the Protocol dealing with God, though what he says doesn't convince me. Miles also says *To start with, they are trying to pin everything on the Jews, but we know that all the top financiers are not Jews.* That's one point at issue, and seems to conflict with other Mathisian writings, that every important person is in the Phoenician Navy. *So why would the aristocrats imply they are? Because some of the top financiers are Gentiles who ditched the aristocracy and put their cards in with the new money...* says Miles. Well, maybe that just includes Crypto-Jews and High-Level Freemasons and some others. Anyway, he goes into a long account of appealing to latent feelings of approval in the super-wealthy, and waxes lyrical on all the stolen trillions, as though paper money made from nothing can continue separated from ideas of land and asset ownership.

Jonathan Greenblatt, of the ADL. The wristband may indicate (or claim) that Greenblatt was 'firstborn'. There's something similar in Indian castes. This sort of thing—numerology, 'aces and eights', calendar coding, secret ceremonies such as 'Kol Nidre'—is likely to become better and better known to the public. Anyway, these are worrying issues. But there are others, such as **the accusation that Miles is soft on Jews**, with a hidden agenda to whitewash them. He has said nothing on nuclear frauds, which he may or may not understand. He has an *alter ego* of science interests, and presumably should include nuclear power as a Jewish fraud, with huge implications for the future, including the possibility that electrical power will diminish and fail, and that coal and gas will be ruined by

Jewish machinations. A related incident is censorship from Japan, probably to reduce Japanese awareness of the Hiroshima and Nagasaki frauds.

**Miles is perhaps a minority interest** because he says little on mundane everyday topics, preferring the high ground. He doesn't say much on selective use by Jews of money: in the UK, white mothers have been jailed for not paying their TV 'licence', but illegal immigrants are given houses and 'white goods' and have their rents paid. The 'Labour Party' is run by Jews and promotes things like benefits for illegal immigrants, while whites are housed in slums without hope of housing. Immigrants are paid for doing nothing, more than workers in Britain are paid; I'd guess so the ugly Jewish bosses want to promote race mixing with poor whites. Miles says that Jews steal money worldwide at faster than ever rates, but leaves it as an abstract proposition. This seems a fair criticism to me; I'd have liked to discuss it.

It's possible (perhaps through Jewish influences. I remember the claim that Eric Blair/ George Orwell was handled at all times by a bunch of Jews) that **Miles understates military violence by 'Allies'**. Some anti-war sites are 'white guilt' sites, careful to omit Jew profiteering. Because of censorship, it's a difficult issue. I've posted some Vietnam War material on this, but of course many poor white violent types don't like this. Jews use them to promote blacks against whites and white groups vs other white groups..

Another set of opponents to Miles think he's **soft on Jewish atrocities**. For example, he thinks the Dresden bombing was misrepresented and faked. I'm inclined to think it distracted from Eisenhower's Rhine murders. It is *possible* that deaths under Jews have been over-reported by truthers who want to report the fake 'Holocaust'. And **estimating deaths is a difficult topic**; should people who died young be counted extra, to allow for their not having children? Should people forced into impoverishment be included? Jews include Jews living after the fake 'Holocaust' if they can make money from them; should WW1 and WW2 whites allow for dead parents' missing grandchildren? A good example of a vague Jewish policy is their attitude to competition. They want monopolies for themselves, without allowing competition for others. Where they don't have representation, they want votes, 'democracy', free travel. But when they have power, they want to cut it off for others. When there is peace, they want to introduce subdivisions and rivalries and funded thugs and agitators. A Jewish trick is to watch for some reaction, then take it over; for example, 'socialism' started along with technology, the idea being to somehow share the benefits of better technology. But Jews make strenuous efforts to bend such things in what they think is their interest. Marxism is a good example of Jew-bent socialism. Miles I think is aware of all this.

There are **many Jewish issues waiting in the wings**. Mathis never I think refers to the *Talmud* and its wily cautious hatreds, **designed for inflammatory explosions under the right conditions**. Or the oddity of linked beliefs which say members are chosen by God, but carefully keep their belief hidden. But, of course, hardly anyone else does. It is something like a series of algorithms, a sort of rule-book, which seem to have a lifelong impact on simple Jews. It's important

because of the uncertainty it leaves as to how compelling it's supposed to be. We currently have a situation where **some Jews have a tight control over money, conditionally upon people not understanding this. They might do well to keep the situation static.** But Talmudic influences seem to have tipped their genetics to constantly doing more of the same. Europeans wondering about replacement may take seriously claims by Jews that very low-IQ immigrants are needed for work and effort. The truth probably is that **Jews deeply hate whites**, so that even if levels of competence drop to nothing Jews powerfully support their destruction. Miles seems aware of this possibility. I don't think he fully grasps it, though. Jewish central banks, for real or manufactured nations, print so much money that considerations of profit hardly matter to them. Yet Miles considers that gun control propaganda is intended to raise profits for gun makers. Or is this for their collaborators? I don't think he's sorted these ideas out. But then again nobody else has.

**Revision of the past is part of Mathisian work, extending back to the Medes and Persians and before.** I suspect however the influence of people like Josh G. For example, on the William of Orange invasion and Cromwell, and the Great Fire of London, Miles' publications soft pedal war atrocities in England and impoverishment of English people by the Jewish debt bank system. Similarly, I noticed a piece by Josh G (not necessarily the same one) on Jews in China, an issue to which many people, including me, have been slow to notice. Does Josh G include mass murders by Jew-connected armies? Does Josh G discuss money from the USA given to Jew-run Chinese, in the way USA money was given to Jews in Russia? Well, not really.

I must mention **biology and medicine and Miles**. He mentions 'antioxidants' somewhere. As far as I know, vitamin C is a molecule which can equally accept oxygen or give it up, so it circulated wound picking up oxygen from blood around the lungs, and giving it up in remote parts of the body, then continuing for more. He talks of partial poisoning by cadmium, I think from red pigment in the outside of Le Creuset cookware. He's never discussed salt in food, and the Jew-related campaign against it, no doubt to harm whites. But maybe this is just detail; he's been right all along about the coronavirus/ COVID/ 'vaccine' fraud. I've wondered why he seems not to have compared the fraudulent 'hiv/AIDS' 'pandemic' with COVID, but 1984 is nearly 40 years ago now, when Miles would be about 12. Watching a 'documentary' with 'noddy shot' morons about Freddie Mercury, I wondered if Brian May is a Jew, going along with NASA frauds, and Jews pushing fraudulent medicine, and getting lotsa publicity.

I can't recall that he's discussed **race**, and the obviously phoney pretence of Jews to support blacks; many examples, from NAACP and BLM to examples from the black slave trade to South Africa and secret USA wars in Africa, show this. But perhaps he hardly needs to. The only reference to Coudenhove and Kalergi is in rich.pdf by 'Chachi Bayou' in I think Sept 2020; which may prove something.

Anyroad (to quote John Lennon) I maintain that Miles Mathis is a great thinker and innovator. In my view, he needs a dose of publicity awareness too. And more debate.-- RW 30 Nov 2021

**Below I list various screenshots and emails related to all this. I haven't bothered to sort by date. This simulates the way some online arguments develop. I want to show how I consider Miles Mathis to be a very serious truthseeker, but at the same time I may be a bit wrong.**

I looked at my logfiles and was surprised to find about 36 from cuttingthroughthefog, which I'd thought is moribund, judging (I fear) by the average level of comment. They were from Australia, Austria, Brazil, Canada etc, though about half from the USA. They all pointed to my piece on Miles Mathis.

May I just make a few points. As far as I'm concerned, I never 'fell out' with Miles. It's just that he never emails etc with me. The email quoted about flying fucks was something I recently found; I don't think I've seen it before. That search engine on my site was set up with freefind, a completely standard bit of software which anyone can use, though like most software the techies behind it don't make it easy. I think I copied the idea from David Irving. I even offered it to Miles, to add to his site; given the password, he could have had it on his site for years. However, he doesn't talk to me.

I also would have liked a long discussion online with him. I have quite a high opinion of my chats, and their download numbers are quite high, though less than they were on Youtube from which I was of course banned by Wojshit. For example Lords of the Nukes. Many online talks of course are of dismal quality..

Hexzane527 is (as far as I know; I've never had any contact, which anyway might be risky for him in France) the best writer on WW2 as a possible mutual joint arrangement by Jews to kill off others. A good hypothesis which I did my own version of (<https://big-lies.org/how-master-race-won-ww2/index.html>) where 'master race' is not the Nazzies. I collected together his PDFs and assembled them with titles and an index on my site; partly because they're very hard to find, even if you know they're there, and partly in case they vanish. Come to think of it, I did much the same with Miles's PDFs after they disappeared once, what now seems a long time ago. I don't know if Miles has even noticed. He doesn't talk to me.

Anyway, I'll leave but let me just express surprise that such a fertile writer as Miles should have so few intelligent comments. Oh – I just noticed one very good

If anyone is interested, I just told Raeto West, aka rerevisionist, to take a flying a-f-k at the moon and quit emailing me. I found another one of his attacks on me highly listed for no reason at Google on an unrelated subject (folk music), so I now consider him a confirmed spook.

**JUNE 2018:** Two contributors to Simon Shack's *Cluesforum* site. The comment against Mathis is that he hides the truth about 'faked footage' and faked victims. Both these are visual and for example the word 'vicsim' (simulated images of supposed missing people) hardly appears in his work. It does in <https://big-lies.org/mileswmathis.com/dunham.pdf> (Oct 2016) **Some [includes Simon Shack] have accused me of avoiding current topics for older ones, and therefore somehow misdirecting** and in <https://big-lies.org/mileswmathis.com/xchurch.pdf>, by 'Uncle Owen' on Christchurch in New Zealand, which lists many vicsims (and substitutes 'x' for 'Christ', a Jewish thing).

WTC7 as a keyword is in <https://big-lies.org/mileswmathis/wtc.html> (2017-04) in what must be a joke piece on inflammable toilet paper and fire. And in two pieces by Mathis, [berg.pdf](#) (2019-05) (on two Jewish Bergmans. On events reported before they happened) and [oslo.pdf](#) (2019-10) (on Breivik's supposed massacres; mentions destroyed documents).

**Neocons** get quite a few mentions, but in an irritatingly dishonest way: they are unnamed and the word is used vaguely: 'the neocon mob', 'pervert or a child molester or a neocon', '... became neocons in the late 1970s'. Mathis used the word 'fascist' in a similar irritatingly vague way. Wolfowitz gets only two mentions, once in an old html file on Hitchens. and once, March 2018, in

austin.pdf, on Wolfowitz as one of the 'top dogs' at Northrop Grumman, in relations to fake bombings in Austin, Texas.

**PNAC** New American Century has only one mention, pass.pdf, entitled *911 Passengers* (By MM, May 27, 2020).

9/11 911 911.html links to **7 HTML files by Miles**, including for example his exchange with Noam Chomsky, and wtc7.html . 911 is most represented in naomi.pdf and includes many remarks by Mathis on the redirecting types (Chomsky, Zinn, Naomi Klein, Naomi Wolf, Gore Vidal, 'Obama', Camille Paglia, Cockburns, Penn Jillette) **but** I can't help noticing he doesn't make positive claims about what happened. And his names are not politically active.

**Guiliani** nothing much. But Silverstein: 2017-04-15 strike.pdf so-called 19 hi-jackers and lies 2020-05-12 titan.pdf (profit from insurance, including investigators. Titanic example) 2020-05-29 pass.pdf on passenger numbers in planes kept as low as possible.
